# DigiDECOM

Online event focusing on innovation within nuclear decommissioning

@actimondo

## Impressions of previous DigiDECOM events

actimondo presentation | Cooperation with Korea | 22.03.2022

## Onboarding for newcomers

- 180 days program
- Hybrid training course
- 2 groups up to 25 persons per year
- Start Mid 2022

## Program structure

- Part 1 Professional course
- Part 2 Junior expert course
- Part 3 Senior expert course
- Practical training onsite

## Support by actimondo

- Development of the program
- Acquisition of lecturers
- Recording of content
- Hosting of the virtual training part

## Training concept

- Every week one topic
- 3 h expert presentations (pre recorded)
- 1,5 h live expert talks with lecturers
- 1 week practical training at ANF

- 180 days onboarding program for newcomers
- Hybrid training course – online and face-to-face
- Location: Lingen (Germany)

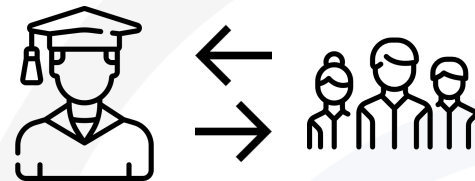

## Build up of a **Young Professional Mentoring Program** with support of IAEA

### Realization based on a **3 Source Modell**

- Virtual venue
- Learn management platform
- Face-to-Face training

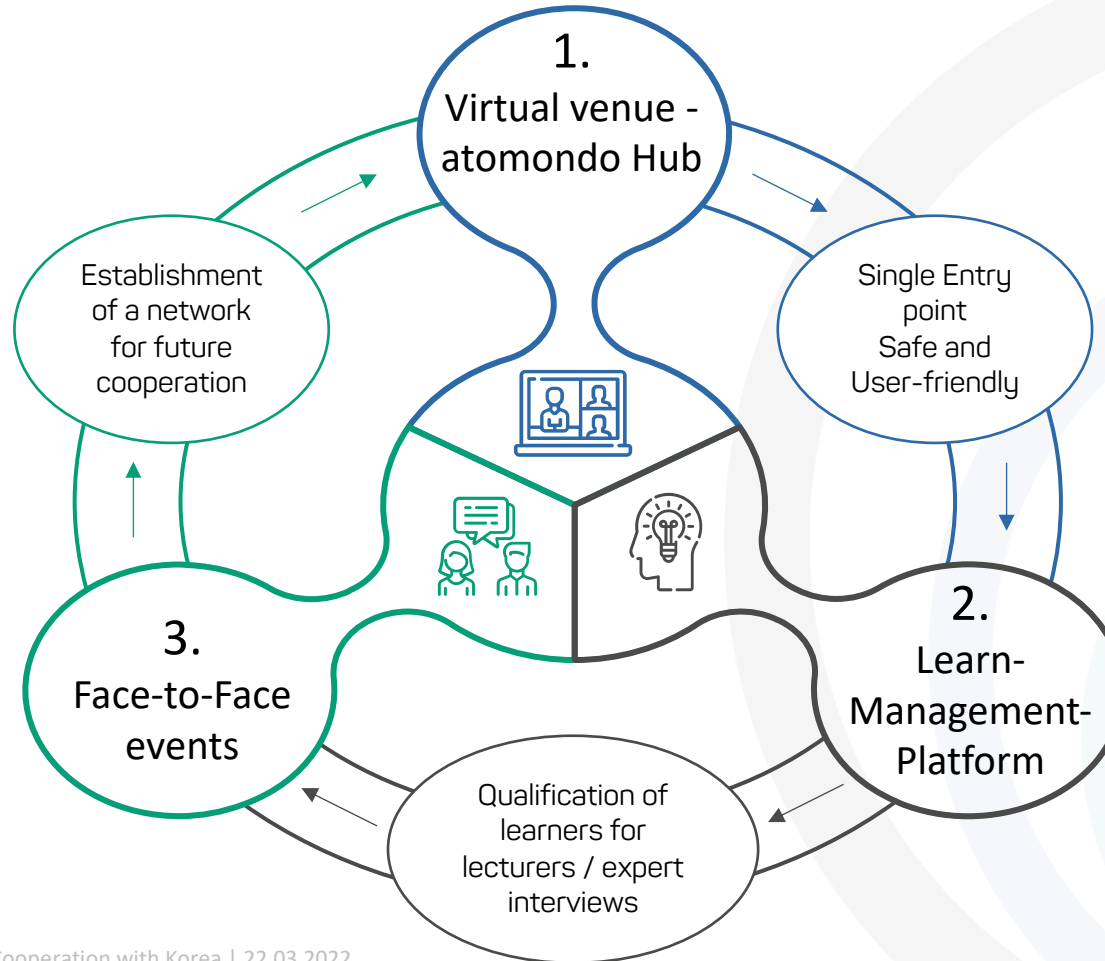

**Aim:** Bridge the gap between students and young professionals

# 3 Source Model

- Meeting point for nuclear community
- Host of international online and hybrid events
- Gateway to
  - Academy campus
  - Conference center
  - Exhibition hall
- ...

- Workshops
- Conferences
- Young Generation meetings
- ...

- Course Management
- Personal Workspace
- Learning Communities
- Test and Assessment
- ...

Version: 2.1

"Acadmy Campus", including Training center and learn management platform, will start operation in April 2022.

# Our partners and customers

Thomas Xu (FEVDI, International Sales Manager) says:

*"The actimondo team has developed an interesting hub to provide information about innovations in the nuclear sector. This makes it easy to either search for already existing solutions or to promote new product developments in a professional way."*

Ferdinand Bartels (PreussenElektra, Department Head & Project Manager) says:

*"The atomondo hub is a great opportunity to exchange experiences in our industry worldwide. That's why I'm especially excited to participate in DECON, taking place on the hub."*

Dr. Tim Thomas (Safetec, Head of Nuclear Consultancy and Innovation) says:

*"Face-to-face events are important for exchanging information with customers and partners. In addition, however, communication channels are needed to keep abreast of new developments and to share own experience with the nuclear community worldwide. The atomondo hub can help you keeping up with these demands."*
